Ensouled head prayer guide wow classic wow

To begin training, you can just type `::train` and it will teleport you to rock crabs. If you say yes, you will be teleported to start the quest. Go around the pool with the whirls in it and to the right until you come across the crevice on the wall, which is the entrance. More than likely, you're not going to get any drops worth millions on these tasks at first. An animated warrior will spawn. Vote on at least 5/6 toplisters (why not just do the 6th) and you will be given a code. Earn 15,000 barrows points and you get a full barrows set. Part I Part I - The Teleportation Wizard/Traveling: The main method of travel on Alora is the teleport wizard. Please leave feedback as well as what I'm missing/how to make this guide even better (Credit will be given) Thanks for reading and I hope that this guide helps some of you out! D Skimmy Gentleman, this... Democracy Manifest! Plus, it's free! Normal Player: 630 Points / 210 Games Regular Donator (\$10) 630 Points / 158 Games If you'd like, go ahead and grab that Ava's Accumulator for an extra 10 points. Hello Alora adventurers! When I originally created this guide, my intentions were to create a basic starter guide for newcomers. Great! I'm going to start explaining the different bosses of Alora and the most effective ways to slay them. I make daily/weekly updates to the thread so keep checking in! Appreciate the support, continue being awesome! :) Voting A server relies on it's players to keep it alive and growing, and Alora has simplified the voting process into a few easy steps. There's no way around this, and thankfully it goes by pretty quick. Let's talk about what's next. I am not doubting the fact that one can make some cash off of barrows, it's just not the best way. Completing Barrows runs rewards potential barrows items as well as barrows points. Part II Part II - Quests: There you have it, you are almost fully geared. Now, there is a correct way to do this quest which involves using magic/range. Five of the six bosses can be killed pretty easily with any of the 3 combats. Kill him, pick up your armor as well as the tokens that he drops. I love the Bandos set look, and obviously the glorious gains your player feels when wearing this powerful gear. Elite Void is worth it, however if you can't stay for just a little while longer regular void will do. You can sell the heads to the slayer master (who is located right outside of the shops). The droprate for Dragon Boots is pretty high, you cannot use prayer in this quest, so super restores and prayer potions are useless. Pest Control rewards 3 points per game. There will be six. As you get better at it you will learn what you need to prioritize in each scenario and emerge victorious :) Team/Duo: If you're lucky enough to have a pal along for the trip, it will make the runs a lot smoother and easier. Donating isn't a requirement by any means, just a recommendation. Find Shanomi, trade him and purchase the Rune Defender. There are two quests that I will recommend in this guide for now: - Desert Treasure: Gives you access to a shop containing the Book of Law Desert Treasure is extremely simple, you're slaying instanced bosses one by one. They're pretty easy to beat. Keep your account safe and make dem gainz :) Speak to the account guardian at Edgeville bank to get started. Sergeant Grimspike does ranged damage, Sergeant Steelwill does magic damage, and Sergeant Strongstack does melee damage. Run to the back right of the building and speak to Eblis to begin. Sometimes the minions and Graardor will spawn in slightly different locations messing up your rotation. You're ready to go upstairs and enter the Cyclops room! Pray melee, and start killing! More than likely, you will get your Dragon Defender with those 400 tokens. Bosses and what to pray: Protect Magic Protect Melee Protect Melee Protect Melee Protect Melee Surprise, Protect Melee Very easy. I've made 5m+ on hard tasks that take maybe 30 minutes. It is a few boss fights one after the other. Part III Part III - Bossing: A popular starter boss is an instanced monster known as Zulrah. After he is dead, immediately run up the right side of the room Northeast. I didn't donate until I was wishing that I had earlier. Dagannoth Mother (DM): She changes colors, prompting you to change combats to deal damage during each phase. However, I completed the quest with melee only. You've completed the quest in five minutes of your time. Now it's time for some more free items. Part I - Pest Control: Ten minutes later, you're ready to get some pretty essential starter gear. However, slayer monsters drop ensouled heads, as well as tons of money caskets. You will need runes/magic gear/ranged gear. If the ranged minion somehow starts attacking you, start praying range and take him out. Pray Magic and start slaying. It can be redeemed at the Vote booth at the Edgeville bank on the south wall. When he is in his melee form, shoot and move, shoot and move, shoot and move. Yes, there are certain drops that reward some decent cash. Dragon/Runite/Diamond Bolts can be substituted with similar Zulrah results :) Inventory: Strategy: Zulrah has three different phases: - Ranged (when he's green) - Magic (when he's blue) - Melee (when he's red) Pray accordingly, along with Eagle Eye prayer to boost your ranged. Run through the dungeon to the end and you will arrive at General Graardor. Advanced - Kraken (Level 87 Slayer): Kraken is a very easy boss to kill. Part III - Barrows: Getting there: Teleport Wizard -> Minigames -> Barrows Inventory: - Spade - Special Attack Weapon - Super Restores or Prayer Potions - Food Barrows isn't really a necessity for making money. Gearing: - Serpentine Helm > Void Melee Helmet > Nezzy Helm > Verac Helm Max Cape > Inferno Cape > Fire Cape > Strength Cape Amulet of Torture > Amulet of Fury > Amulet of Glory Bandos Chestplate > Elite Void Chest > Fighter Torso Bandos Tassets > Elite Void bottoms > Verac's Plateskirt > Dragon Platelegs Dragon Defender > Dragonfire Shield Tentacle Whip > Zamorakian Hasta > Abyssal Whip Barrows Gloves > Void Gloves Primordial Boots > Dragon Boots > Bandos Boots Berserker Ring > Ring of Wealth I only recommend the Void if: You have ELITE Void You are wearing the full set Inventory: If you don't have a Crystal Halberd (get one), then you can use a dragon dagger. If I were you, I'd bring a Special Attack Weapon, level boost potions, and fill the rest of your inventory with food. You've been given a hardy starter kit including the essentials you will need for training. Recommended Stats before advancing: - 75 Attack - 75 Strength - 75 Defence - Bury bones! As you level up, head over to the ::shops to upgrade your gear. For those of you who will want to do it the correct way, I will provide the information needed. Sometimes, the first guy in will aggro all of the NPCs in the room, which obviously comes with some nasty damage. Turn on some music/netflix, pick up some money caskets, and enjoy the start of your PvM career on Alora. Some examples would be: Kraken - Level 87 Slayer (Kraken Tentacle, Trident) Abyssal Demons - Level 85 Slayer (Abyssal Whip, you need a new melee weapon at this point!) Cerberus - Level 91 Slayer (Primordial Crystal, Pegasus Crystal, Eternal Crystal, Smouldering Stone). He is an easy boss for starters to kill, as well as a pretty decent list of drops. Gearing up: or If you spent the time to get your Elite Void, this is where you'll really want to use it as a starter. The only thing you'll be competing against here is good ol' RNG. If you choose to complete the quest the way I did it, just wait until the Dagannoth Mother is orange to attack. Return to Graardor and pray melee to finish the run! From there on out it is rinse and repeat. Getting there: Teleport Wizard -> Bosses -> Godwars When you arrive, run NW until you reach the doorway. Below I will list the shop rewards that we're after for completing PC: Fighter Torso: 100 Points Void Mage Helm: 60 Points Void Ranger Helm: 60 Points Void Melee Helm: 60 Points Elite Void Top: 200 Points Elite Void Robe: 200 Points Void Knight Top: 100 Points Void Knight Robe: 100 Points Ava's Accumulator: 10 Points Now before you freakout, I have included both sets of Void. I plan on turning this into quite the guide, so I'm putting a lot of work into it! Advanced - Godwars: General Graardor and Bandos: By far my favorite Godwars boss to farm. Advanced Guide for Starters Still tuned in? In addition to leveling up slayer and making some starter cash, higher slayer level unlocks new bosses and monsters that are easily killed with proper gear. In addition, the last brother of each run has the potential to drop a barrows item. After receiving support and a lot of thank you messages from you guys, I have decided to expand this guide. When he is in his magic form, pray magic the entire time. If you eliminate either the ranged or magic damage, your gear will more than likely tank the melee minion and you will only have to kill either the ranged or the magic minion. If Graardor is in reaching distance he will melee you. Rinse and repeat this process until you've accumulated 400 tokens. It is complete RNG. Pray Magic and start attacking Kraken. In addition to a 12% Prayer Bonus and 2.5% dmg bonus, Elite Void can be used for bossing. Also, if you enable 2 Factor Authentication on your account, your vote books also grant 50% bonus experience upon use for 1 hour! Enabling this features keeps your account well-guarded against hacking. Eblis now offers his goods to you which include: The Ghostly Robes, Mystic Staff, Book of Darkness, Book of Law, and Book of War. They all do different types of damage. There are two ways to kill Kraken: Range: Mage: For Range: Armadyl Helmet > Void Range Helmet > Karil's Coif > Archer's Helm Ava's Accumulator = Ranged Max Cape (I wear the cape for the defence bonus, however Ava's is probably better) Necklace of Anguish > Amulet of Fury > Amulet of Glory Armadyl Chestplate > Elite Void Chest > Karil's Leathertop > Black Dhide Armadyl Chain skirt > Elite Void bottoms > Karil's leatherskirt > Black Dhide Barrows Gloves > Barrows Gloves > Barrows Gloves Pegasus Boots > Ranger Boots > Dragon Boots Toxic Blowpipe > Armadyl Crossbow > Rune Crossbow > Karil's Crossbow Archer's Ring > Ring of Wealth If you are wielding a crossbow, also wear the Book of Law I only recommend the Void if: You have ELITE Void You are wearing the full set For Mage: Ahrim's Hood > Farsoor Helm > Nezzy Helm Any of the God capes will suffice Ahrim's Robotop > Infinity top > Mystic Robotop Ahrim's Robeskirt > Infinity bottoms > Mystic Robotop Trident of the Swamp > Toxic Staff of the Dead > Mystic Staff Infinity Gloves > Barrows Gloves Eternal Boots > Infinity Boots > Dragon Boots Mage's Book > Unholy Book Seer's Ring > Ring of Wealth Strategy: The strategy is very straightforward, run into the boss room and get in range (I stand on the dock). (Ty Wreckage) Bring some food as well as Super Restores or Prayer Potions. There isn't too much explaining to do for this quest other than what to pray against for each boss. Part III - Slayer: Another great way to make some money is slayer. Hint: I spent a little more time than needed here, accumulated 10-11 dragon boots and at the time sold them for 4m a piece! If the RNG Gods are with you, you can make some good GP off of this. Pay attention to the drops. Strategy: Start killing the bosses spawning in front of you. I plan to create the Ultimate Alora guide covering everything that you can do on this wonderful game. If you feel the need to train range/magic, or level up more, go for it! Make sure you're burying bones. In addition to increasing server traffic, you will receive a vote book (Currently worth about 4m GP) for helping out! It's extremely simple, type `::vote` in-game and you will be directed to their voting link. Pest Control is an easy and somewhat fun way to obtain void, fighter, and range equipment that you will/can use for a good majority of your stay on Alora. I only used melee for this quest. You look down at your ugly, unclipped, green toenails and realize you need some kicks. Inventory: - Special Attack Weapon (dragon dagger works great) - Super Restores or Prayer Potions - Food Getting there: Teleport Wizard -> Bosses -> Godwars Head southeast until you reach the Spiritual Mages. He is located in Edgeville next to the bank. White - DM will take damage from air spells Blue - DM will take damage from water spells Brown - DM will take damage from earth spells Red - DM will take damage from fire spells Orange - This is the phase that you can deal melee damage to the DM Green - This is the phase that you can deal ranged damage to the DM If you choose to complete the quest the correct way, be prepared to sacrifice some inventory space for runes, magic gear, and ranged gear. Strategy: Solo: The ultimate goal here is to only have to deal with one or two of Graardor's minions. Part I - Warriors Guild/Dragon Defender: Congratulations! Aside from farming bosses for hours, you've completed the most tedious activity on all of RS and emerged with a brand new set of gear. There is no indication to when he is changing attacks and trying to prayer switch will do nothing but allow him to hit even higher on you. Some players get drops on their first kill, some get them on their 100th kill. Getting there: Teleport to the Duel Arena via Teleport Wizard or by typing `::duel`. For this part of the guide, you will need: Alternative: - Rune Full Helm - Adamant Full Helm - Rune Platebody - Adamant Platebody - Rune Platelegs - Special Attack Weapon Rune Set rewards 40 tokens, adamant rewards 30 tokens. - Recipe for Disaster: Gives you access to a shop containing Barrows Gloves RFD is an extremely easy quest. Alright, so you've registered your forum account (which is linked to in-game) and you're ready to go. After you enter, immediately kill Sergeant Steelwill (Pray Magic) If the boss starts to attack you, pray range and kill Steelwill as fast as you can! You will take more damage praying magic and getting hit by Graardor's ranged attack. Nothing more, nothing less. In no way am I saying he isn't going to pepper you with annoying hits that make you stop to eat, because he is *sigh*. Getting there: Teleport Wizard -> Bosses -> Kraken (Instanced) When you arrive, walk straight forward. Unlike other popular money making methods RSPS-wide, PvM is a risk-free way to make bank and at the same time meet some friends! I will be adding more bosses as time goes on. Simply type in the name of the NPC and boom, you have every item he drops as well as the percentages for each. Farming is the name of the game, don't give up after a few kills. Now, kill your animated warrior again until you have 400 more tokens. He will more than likely never even hit on you during this part of the fight. If not, he will slam his fists into the ground and deal range damage (60+ HP if you aren't praying against them). Simple and easy, enjoy your loots. Right click your Rune Platebody, click "use" and then use it on the platform in the animator room. Casket money along with ensouled heads can make you millions within hours. At this point, Graardor should be all yours. He will hit ranged attacks on you as well, but continue praying magic and watch your health. Alora has working quests that have been shortened (approximately 5 minute quests, still a neat touch to this amazing server). And there you have it! Finish off the Dagannoth Mother and you will unlock the chest next to the Gypsy, containing different types of gloves including Barrows Gloves. Two of you means one person per minion (minus the melee minion who will deal minimal damage if you are geared correctly.) Upon entering, one of you take Mr Steelwill out, while the other grabs the boss, melee minion, AND range minion. There are also a few commands for travel, but not many. Part I - The Basics: Players apart of the RSPS community will tell you that regardless of the eco server you choose, the start for normal players is somewhat the same. Location: Talk to the Gypsy at the building next to the bank where the thieving stalls are and she will ask if you're ready to go. Getting there: Teleport Wizard -> Minigames -> Warriors Guild Head inside and go into the Animator room to your left. That is all for now, I am currently working on this thread. Database leaks happen. Add some ruby bolts (e) into play and you've got some pretty quick Zulrah runs. It has been brought to my attention that Ruby bolts (e) are a rather expensive purchase. Luckily, a database can't keep record of a randomly generated number making your account impossible to hack unless you let them in. If you'd like to use more than just melee, make sure to read below. The Dagannoth Mother is the only boss you will fight in this quest that you "need" more than melee to kill. They aren't "bosses", though. This player should go for the boss and two other minions, while the second in grabs the magic dealing minion. However, donating increases the points you get per game decreasing the amount of runs and time spent exponentially. You can view the drop table of every npc in Alora on your quest tab. I used Elite Void for Godwars, Zulrah, Kraken, KBD, and many other bosses. If not, simply get more tokens and return! Part I - Spiritual Mages: You emerge from the Warriors Guild looking and feeling like Zaros in your Elite Void, wielding a dragon defender. Great magic defense as well as a 2.5% dmg boost for the full set.
